Profile

I am starting my career as a Web Developer. I am a passionate person for programming, who has a lot of desire to grow and keep learning.

Employment Goal

I seek to consolidate myself in a company as Web Developer, contributing to the achievement of objectives, facing and overcoming new challenges, and always looking to grow together. I also intend to resume my university studies in Computer Engineering or related, which I started but could not finish in Venezuela.

PORTFOLIO

I have created a portfolio of projects to practice and demonstrate my skills. You can see the projects by going to my web page www.abbateangelica.com, in the "Portfolio" section.

SKILLS

Personal

- Self-taught learning capability
- Ability to work in teams
- Passion for my work
- Great desire to continue learning
- Adaptability to changes
- Critical thinking
- Responsible and organized
- Positive attitude

Languages

- Spanish (Native)
- English: Written, Advanced.
Conversational, Intermediate

Tech

- HTML5
- CSS / SCSS/ SASS
- BEM Architecture
- Javascript
- HTTP Requests
- Git and GitHub

Others

- Photoshop (basic usage)
- Microsoft Office
- O.S. Windows (XP, Vista, 7, 8, 10)

EDUCATION

HIGH SCHOOL

2011. High School

Unidad Educativa Colegio "Galileo Galilei"
Barquisimeto, Estado Lara, Venezuela

COLLEGE

2012 - 2016. Computer Engineering (unfinished)

Universidad Centrooccidental "Lisandro Alvarado"
Barquisimeto, Estado Lara, Venezuela

WORK

Throughout my life I have worked in various fields as a salesperson, hairdresser, makeup artist, refrigerator, customer service agent, technical support agent, and kitchen assistant.

Despite not having formal experience as a Web Developer (that is, in a company), I have about a year studying in a self-taught way the main aspects and skills to become a web programmer, and I have developed my own **portfolio** looking for practice and demonstration of my abilities.
